News Release

Employment Training Panel Awards More Than \$13 million to Train Nearly 14,000 Workers
California Tooling and Machining Apprenticeship Association Awarded Nearly \$122,000 to Train 41 Apprentices

SACRAMENTO – The State of California’s Employment Training Panel announced it approved 55 contracts worth more than \$13 million to train nearly 14,000 workers. The panel awarded nearly \$122,000 to the California Tooling and Machining Apprenticeship Association (CTMAA) to train 41 Apprentices.

“The training funds approved today will help workers to gain experience through on-the-job training that can lead to long-term careers, and will help to provide employers with a qualified workforce,” said Employment Training Panel Executive Director Stewart Knox.

For 10 years, the non-profit CTMAA has trained machinists, mold makers, tool and die makers, and technicians through two and four year programs. With the increasing retirement of journeymen, the apprenticeship program provides training to ensure workers are available for open positions.

“CTMAA assists California manufacturers in training for the advanced manufacturing and CNC machining skills so critical to remaining globally competitive,” said CTMAA Secretary of the Board Dick Herman. “We enjoy preparing newly trained, highly skilled technical workers for critical California supply chain manufacturers who are the backbone of our State’s economy thus increasing employment opportunities for deserving, hard-working technical professionals.”

Successful trainees of CTMAA will complete the apprenticeship program and receive journeyman status as certified by the California Division of Apprenticeship Standards, as well as metalworking skill credentials and OSHA safety training certification.

The Employment Training Panel is the state’s premier program supporting job creation and retention through training. The panel reimburses employers for the costs of training existing workers, funds training for unemployed workers to re-enter the workforce and helps to ensure California businesses have the skilled workers they need to remain competitive.

For more information about the program, please visit www.etp.ca.gov, or call (916) 327-5578.
