**Employment Training Panel Approves More Than \$8.3 Million
In Job Training Funds for Nearly 10,350 Workers**

Wonderful Citrus Packing, LLC Receives Contract to Train 256 Employees, Including 20 Veterans

SACRAMENTO – The State of California’s Employment Training Panel today approved 28 contracts worth more than \$8.3 million to train 10,339 workers. One of the contracts approved by the Panel includes \$658,264 to train 256 employees, including 20 veterans at Wonderful Citrus Packing in Delano.

"California employers recognize the talent and experience our veterans bring to the workforce," said Stewart Knox, the Employment Training Panel's Executive Director. "The Employment Training Panel's veterans program provides veterans with the skills needed to enter the workforce and improves opportunities for advancement in high wage, secure jobs."

Since its inception in 2008 as a pilot program, more than 1,000 veterans have received workforce training through the panel's veterans program.

Established in 1950, Wonderful Citrus Packing, LLC maintains more than 47,000 acres of citrus orchards. As the largest producer of fresh citrus in the United States, the company annually processes packs and ships 600 million pounds of fruit to retailers across the country.

Since 2013, Wonderful Citrus has doubled its workforce from 1,000 to 2,000 employees and increased fruit production from 450 million to 600 million pounds.

"We deeply appreciate the support the Employment Training Panel has provided to Wonderful Citrus," said Pete McKenzie, Senior Director of Halos Operations. "These training funds enable the company to train our workforce in essential skills needed to operate an efficient packinghouse. Our trainings will focus on continuous improvement, building bench strength capabilities for our line staff and much more."

With the funds approved today, Wonderful Citrus will train current workers in manufacturing processing and computer skills that will assist the company in providing high quality products at lower costs, enhancing reliability in shipping, managing inventory and increasing production. The training will take place at the company's Delano facility, located in a High Unemployment Area.

The Employment Training Panel is the state's premier program supporting job creation and retention through training. Since its creation in 1982, the panel reimburses employers for the costs of training existing workers, funds training for unemployed workers to re-enter the workforce and helps to ensure California businesses have the skilled workers they need to remain competitive.
